

Use Case ID : 3

Use Case Description: User Logout

Title: User Logout

Actors:

- Primary Actor: User
- Secondary Actor: Auth API

Preconditions:

- The user must be logged into the system.

Postconditions:

- Success: The user is successfully logged out and redirected to the login page.
- Failure: The logout process fails, an error message will be displayed to the user.

Primary Path:

1. The user presses the "Logout" button on the navbar.
2. The system logs out the user.
4. The Auth API returns a successful response.
5. The system redirects the user to the login page.

Exceptional Paths:

- System Error: If there is a system error during the logout process, the system displays an error message.
